

## WHO WE ARE

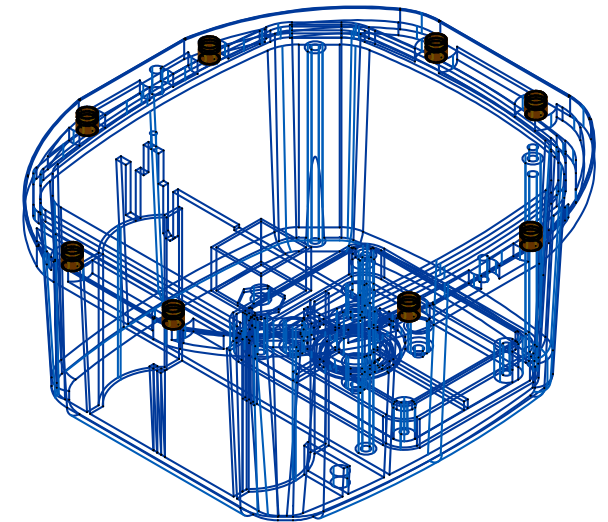

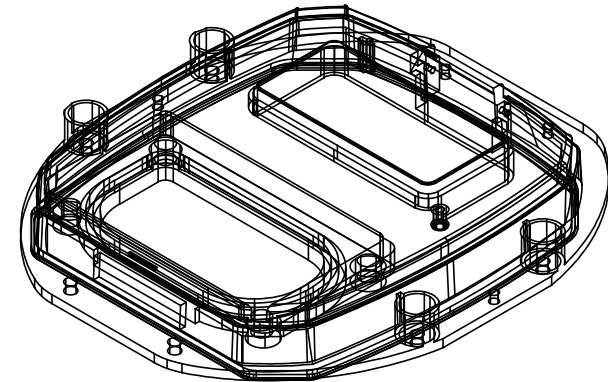

Zanana Plastic (part of Zanana Group) is a mid-to-high volume contract molder with a reputation for collaboration, competency and quality plastic parts. As a Quick Response Manufacturer (QRM), we're able to adapt internal systems for nearly any job.

We are an ideal fit for growing companies looking to launch new product lines or wanting to stabilize their existing supply chain with a reliable, state-side molder.

Founded in 1983, we began as Zanana Plast, with over 45 years acting as an intermediate goods company providing packaging to consumer, pharmaceutical, engineering, and electronic companies. We specialize in the production of complex packaging products and complex engineering and appliance components.

We also provide our clients with a specialized technical parts for engineering and appliance industries.

Clients have expressed/shown the need for specialized manufacturers to provide them with sophisticated packaging so we complied and we provided the solution.

# Engineering & Appliance Parts

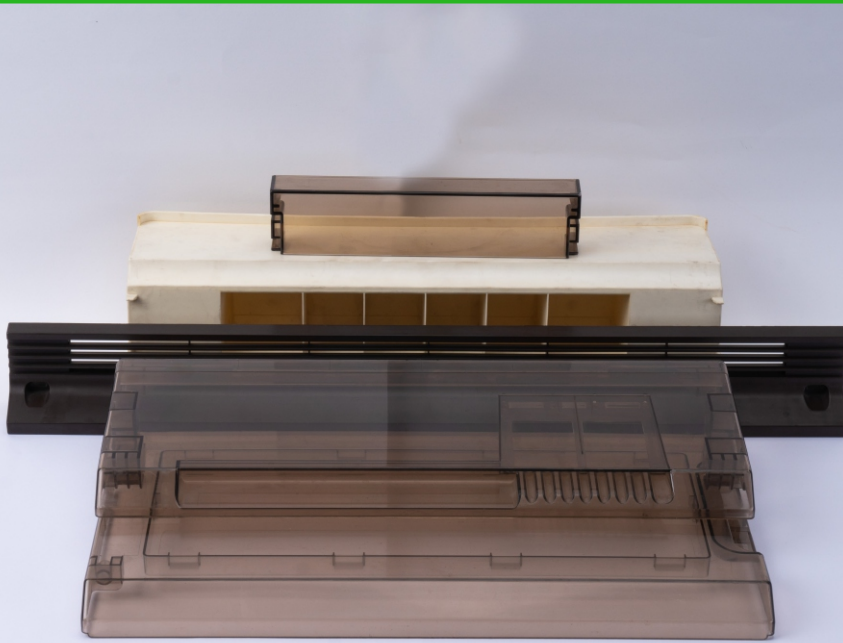

# Plastic Injection Molding For Appliances & Engineering Devices

## IMPROVEMENTS IN DURABILITY

Injection molding has revolutionized the appliance industry by allowing manufacturers the ability to order custom parts based on the unique needs of the project. For example, some appliances may benefit from specific resistance, whether to heat, chemicals, corrosion, rust, or more. The more durable a product, the longer it will last, and the more valuable it becomes to consumers. Injection molding affords manufacturers the ability to specify their own needs, and Zanana Plastic delivers. When it comes to quality in appliance plastic molding, trust Zanana Plastic to meet your exact specifications.

## BETTER VISUAL APPEAL

Both major and small appliances are often out in the open in consumers' homes, so, it is important that the materials used in their design are both durable and visually appealing. Injection molding gives manufacturers a wide range of aesthetic options for appliances such as washers and dryers, dishwashers, ovens, refrigerators, freezers, ranges, and even small appliances like coffee makers and toaster ovens. When products look great in consumers' homes and exceed their expectations in terms of quality, this helps brands develop favorable reputations. Zanana Plastic stands behind our products and strives to help our clients grow.

# Plastic Injection Molding For Appliances & Engineering Devices

## WHY CHOOSE ZANANA PLASTIC FOR APPLIANCE INJECTION MOLDING

Injection molding is crucial in the appliance industry because it keeps things affordable for both manufacturers and consumers while providing increased durability and enhanced visual appeal. HPC's in-house engineers can assist during the tool design stage to facilitate moldable parts from the get-go. Our vendors provide high quality raw materials that ensure our clients receive only the very best components that meet project requirements. Our incredibly robust equipment ensures that we can meet even the tightest tolerances despite the complexity of your component needs. Finally, our adaptability will help you keep on schedule and on budget throughout the entirety of your project.

# Pharmaceutical Packaging

# Pharmaceutical Packaging

## PRECISE PACKAGING THAT WORKS

Precise packaging that works

Zanana Plastic is your reliable partner for precise, high-quality plastic pharmaceutical packaging that meets stringent industry standards

We produce a variety of pharmaceutical packaging solutions including:

- Bottles: Highlight different types (HDPE, PET, PP) for various formulations (syrups, tablets, capsules). Emphasize child-resistant, tamper-evident closures.
- Boxes: Showcase a range of box styles (blister packs, clamshell, folding cartons) with customizable options for inserts and printing.
- Other Containers: Include jars, tubes, and vials for specific product needs.

# Consumer Products/Packaging

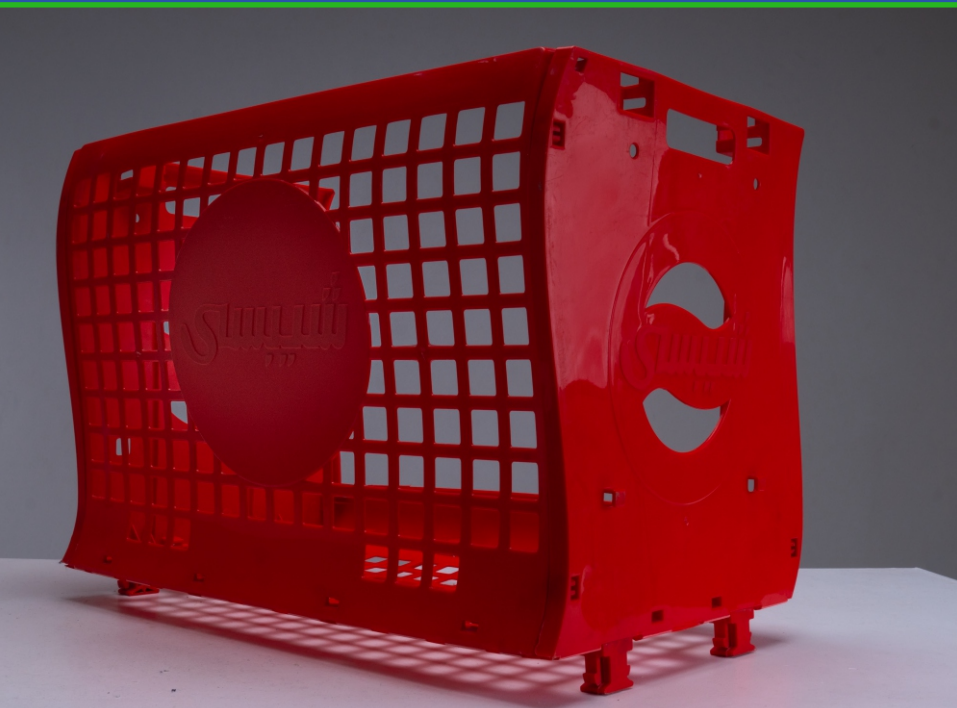

## PRECISION DURABLE PARTS

From disposable razor handles, bottle caps, display stands to precision spray can top nozzle, we ensure all your parts are manufactured to function exactly as required with adherence to your design specs and color requirements.

We provide parts to a variety of manufacturers whom we call business partners, some including international brands that require strict adherence to the brand identity, quality and specification.

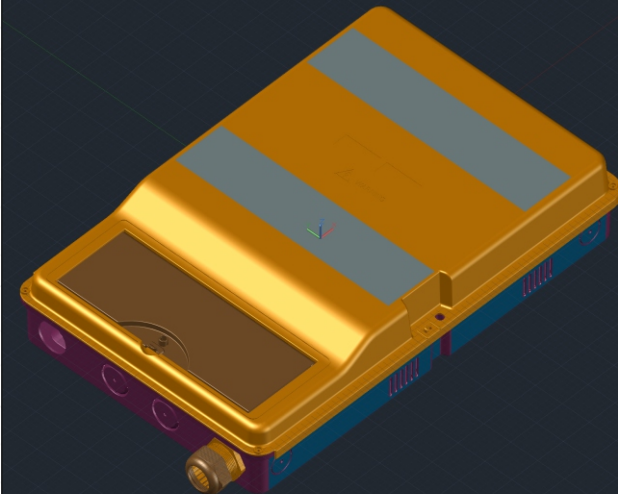

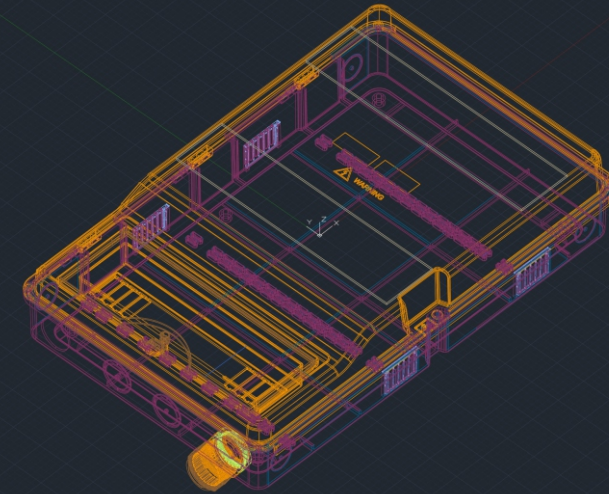

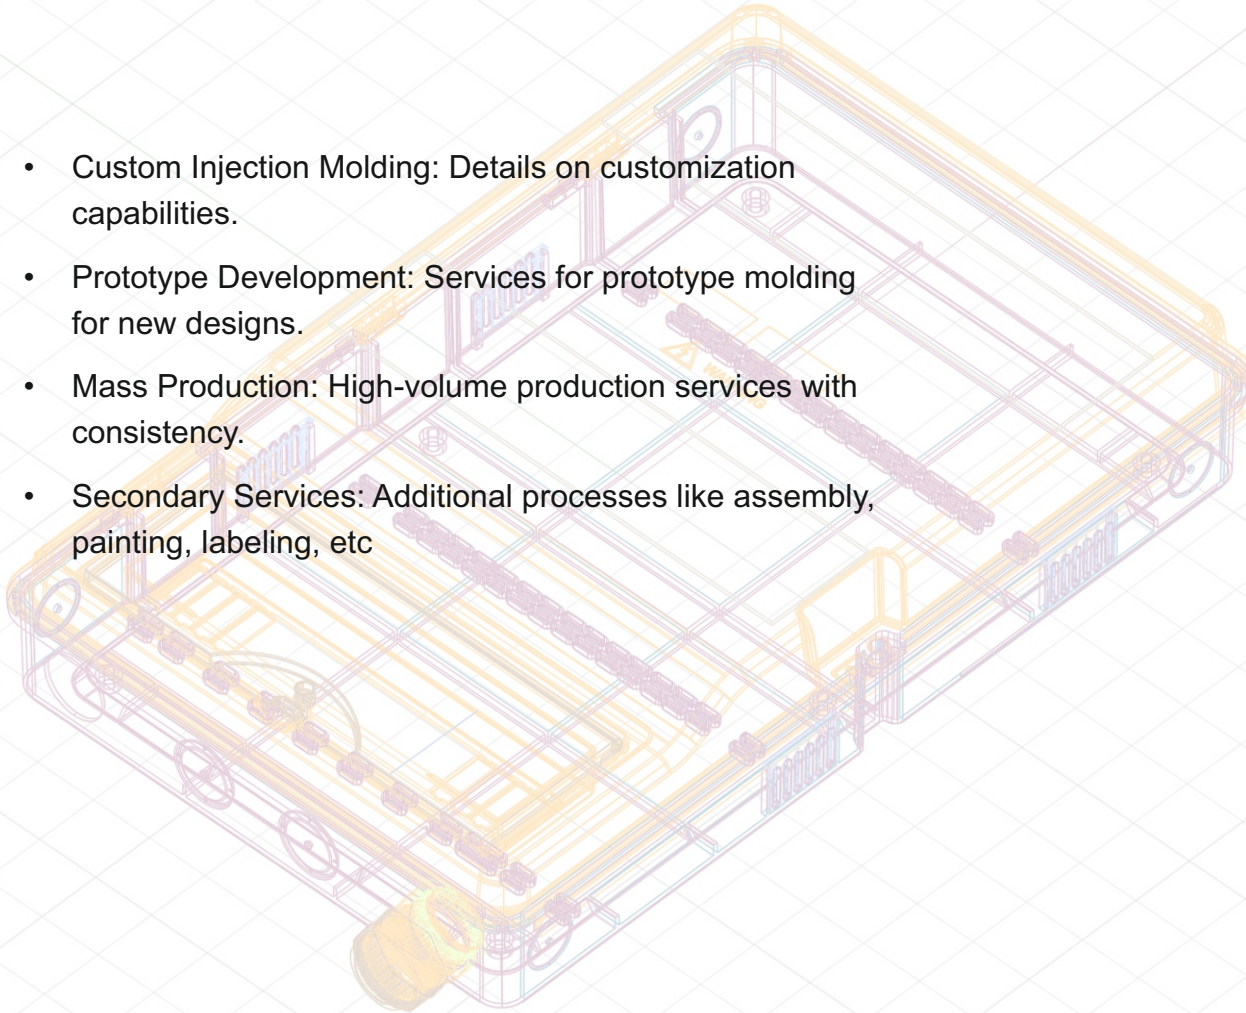

## Extra Services

- Custom Injection Molding: Details on customization capabilities.
- Prototype Development: Services for prototype molding for new designs.
- Mass Production: High-volume production services with consistency.
- Secondary Services: Additional processes like assembly, painting, labeling, etc

## SOME OF OUR INDUSTRY PARTNERS

### Industries Served

List of primary industries the company caters to, such as:

- Medical and Healthcare
- Consumer Electronics
- Packaging
- Industrial Components
- Pharmaceutical industry packaging and products

# Awards & Qualifications

## ISO CERTIFIED

Zanana Group is an ISO9001, ISO14001, ISO45001 approved company. We are also eligible to manufacture for food grade as well as pharmaceutical companies.
